Work experience

Software Engineer · NCS Pte. Ltd.

2026-04 – Present

AI Software Engineer · NCS Pte. Ltd.

2022-01 – Present

Selected contributions across NCS assignments Jan 2022 - Mar 2026 Application engineering & software delivery

- Delivered feature enhancements and defect fixes for an internal enterprise application, supporting ongoing maintenance and day-to-day use.
- Authored test scripts and conducted user acceptance testing (UAT) to check application changes against user needs before release.
- Deployed application releases to UAT and production servers; resolved user-reported issues, answered queries and provided post-release application support.

API integration & internal HR operations

- Worked on an…

Research assistant · Singapore Management University

2021-12 – 2021-12

Evaluated 88 IS216 projects using OWASP ZAP, commercial DAST tools and static analysis; findings supported peer-reviewed research on security in web programming education.

Maritime Tech Solutions Intern · Alpha Ori Technologies

2020-05 – 2020-07

Automated conversion of 150M+ rows containing 3B+ data points into AWS DynamoDB using C#/.NET, JSON and ETL workflows.

Built API proof-of-concepts for 3 vendors and implemented data sorting and voyage analysis to evaluate technical fit and operational trends.

IT Intern · OSM Thome

2018-05 – 2018-10

Built an analytics portal presenting 15 decision data points, a ship-agency workflow supporting 160+ emails/hour, and API enrichments covering 230+ vessels.

Intern · Rightspot

2016-07 – 2016-10

Resolved 20+ bugs in 2 weeks; built applicant-status and job-listing dashboards covering 250 applicants and 500+ companies.

Education

- Bachelor's Degree — Singapore Management University (2017–2022)
- Associate's Degree — Nanyang Polytechnic (2014–2017)

Latest: Information Systems (Cyber Security) — Singapore Management University
