CV-034

Multi Stack / Applied AI Developer

SusaLabs · India · Data & AI

Skills

Python, TypeScript, JavaScript, SQL, LLMs, Agents, RAG, ChromaDB, LangChain, Transformers, PyTorch, FastAPI, React.js, Next.JS, Node.js, Express.js, React Native, Tailwind CSS, MongoDB, PostgreSQL, MariaDB, Redis, Docker, Git, REST APIs, WebSockets

Work experience

Multi Stack / Applied AI Developer · SusaLabs

2025-08 – Present

Architected enterprise web apps across MERN, Next.js, and FastAPI platforms with Redis caching.
Designed AI agentic workflows (RAG pipelines, outbound voice AI STT-LLM-TTS orchestration).
Built multi-tier RBAC, licensing, and device-binding controls across 8+ client products.
Featured Projects SusaGPT (Transformer from Scratch): Decoder-only GPT model in Python with BPE tokenization, multi-head attention, and training loops.
GST RAG System (FastAPI, ChromaDB): Hybrid search tax assistant combining dense vector retrieval, BM25, and cross-encoder rerankers.
AI Resume ATS System (Next.js…
