Work experience

Senior Business Intelligence Analyst · Premier NX - Remote

2022-03 – 2026-06

Built a daily revenue-forecasting pipeline for a Shopify retail client (~880K order-line records): engineered calendar, sales channel, discount, and geographic features and benchmarked Random Forest, Gradient Boosting, and XGBoost (GridSearchCV tuned over 900+ configurations) against regularized linear models, reaching R2 ≈ 0.85 on a held-out time-based split.

Developed an NLP customer-attrition analysis over 80K+ consumer-service records (29K consolidated cases): designed a 30 pattern churn-signal dictionary across six intent categories and applied TF-IDF distinctiveness scoring…

Marketing Intern · Next Pharmaceutical Products (Pvt) Ltd

2021-11 – 2022-02

Conducted market and competitor research on pharmaceutical trends and positioning to support business decision-making.

Reporting Analyst · IBEX

2021-07 – 2021-10

Partnered with stakeholders to identify reporting gaps; used Excel and Power BI to refine report formats, controls, and structures for clearer decision support.
