Work experience

Principal Product Manager · Varadise Limited

2021-09 – Present

Platform leadership: Own the full product lifecycle of B2B SaaS ERP / OEM platforms - discovery, pricing, delivery, UAT, training and rollout; transformation lifted scalability 800% on budget with healthy margins.
Digital twin: Product lead for a district-scale digital twin: multi-project data framework integrating 70+ IoT devices and a CDE with 70 GB of 3D assets as the central project management platform.
Smart facilities: Product manager for an Integrated FM Control Tower for a Class-A office & retail building (20+ IT systems): unified connectors with energy / carbon / ESG analytics.
Site…

Senior Engineer, Building Services · WSP (Asia) Limited

2019-08 – 2021-06

Led retro-commissioning studies across three multi-building government portfolios (markets, swimming pools): IoT field instrumentation, HVAC / electrical / plumbing data analysis and improvement recommendations.
Engineered a 60, 000 RT district cooling bid (mega chiller plant + seawater pump house) and a 12, 000 TR chiller replacement energy assessment at a major convention centre.
Discipline leader on a multi-phase acute hospital redevelopment (A&A, decanting, main block): building services, medical gas, compressed air, town gas and underground utilities.

Project / Building Services Engineer · Hong Kong Disneyland · Takasago Thermal Engineering

2014-01 – 2019-01

Delivered building-services engineering across commercial, residential and entertainment developments an 80, 000 sq.m. Class-A office (BEAM Plus Platinum / LEED), a 165, 000 sq.m. mixed-use residential precinct and a 465, 000 sq.m. resort complex.
Scope spanned conceptual design, feasibility and compliance studies, detailed design, construction supervision and testing & commissioning.

Education

- Metro Education (2022)
