React Native, React.js, Next.JS, Nestjs, Flutter, Node.js, Express.js, RESTful API, GraphQL, Microservices, Authentication/Authorization, Websocket, PostgreSQL, MySQL, MongoDB, Firebase, Cloud Firestore, JavaScript, TypeScript, Dart, C#, Java, C++, .NET, Redux Toolkit, Redux Thunk, Redux Saga, Zustand, React Context, React Query

Work experience

Senior Software Engineer · Nexle Corporation

2017-02 – Present

Key engineer delivering on 10+ projects with adaptable roles tailored to technical challenges:

- Front-end & Mobile: Developed high-traffic client applications focusing on render performance optimization, video player integration, memory leak resolution, and multi platform app store releases (React Native, ReactJS).
- Back-end Development: Designed microservice architectures, built RESTful APIs with Node.js (NestJS), and optimized queries on relational databases (PostgreSQL, MySQL).
- Automation Testing (E2E): Authored End-to-End automation test suites for client outsourcing projects to catch…
