Work experience

Director Of Purchasing · POLYWOOD

2025-01 – Present

Assessed purchasing processes, training, personnel, culture, and systems; leadership approved 98 of 100 recommendations, and all 98 were implemented within 8 months.
Rebuilt the purchasing department, installing SIOP, lean and TPM methods, and metrics for cash, savings, on-time delivery, quality, and VA-VE.
Automated savings and commodity pricing tracking and ordering tools, and launched a web-based RFQ system comparable to Ariba and Coupa.
Manage $190M in annual spend across plastic resins, fasteners, fabric, foam, and transport, raising on-time delivery 10% and savings to 4%.

Senior Director, Supply Chain · Dekko

2024-01 – 2025-01

Offset $30M of tariff exposure on $160M in spend through localization and a tracking system built to cascade tariff cost across 200, 000 SKUs, leading a team of 12 including plant leads.
Managed 310, 000 SKUs and suppliers in 14 countries, restructuring the team into tactical and commodity groups and rationalizing the supply base.
Created a system that liquidated $20M in inventory aged 12+ years, doubling private equity expectations.
Installed SIOP, TPS-based scheduling, long-term agreements, automated ordering, and a web-based RFQ system, raising on-time delivery to 95% and savings to 6%.

Owner/VP of Purchasing · Indiana Consulting and Trade

2024-01 – Present

Deliver strategic sourcing, contract manufacturing, supplier development, procurement transformation, operational excellence, and international trade solutions through this consulting platform.
Advise executive teams on procurement modernization, category strategy, supplier risk, cost reduction, global sourcing, contract manufacturing, and enterprise supply-chain transformation.
Develop international supplier and contract-manufacturing relationships across Vietnam, Thailand, Taiwan, Malaysia, India, and other Asian markets, including tariff and total-landed-cost analysis.
Guide tariff, duty…

Founder & Business Unit Leader / EVP Sales · STRATIC Sourcing & Consulting, a division of Oscar Winski

2019-01 – 2024-01

Built a greenfield global sourcing, contract manufacturing, and advisory business, with supply and quality teams in India and China.
Generated $175M+ in quotes over two years across five industries and established 30 exclusive vendors within 24 months for Fortune 500 clients in the U.S. and EU, using Toyota automotive supplier audits.
Directed the business unit to a peak 29% gross margin, against a 15-22% industry range, and 10% EBITDA.
Led executive contract negotiations and maintained zero past-due shipments through major global disruptions.

Vice President, Engineering, Procurement & Planning · Lafayette Steel & Aluminum, a division of Oscar Winski

2018-01 – 2019-01

Led the turnaround from the brink of bankruptcy, covering engineering, maintenance, purchasing, and scheduling, including an MRP reinstallation on Microsoft Dynamics AX after a failed launch and a TPM rollout.

Regional TPM & Six Sigma Executive · Ecolab

2015-01 – 2018-01

Led 3 Six Sigma Black Belt projects that delivered $12M+ in savings over three years and an OEE initiative that raised OEE 40%.
Standardized TPM and operational strategy across North American sites, earning CEO recognition for the transformation.

Senior Director, Procurement & Continuous Improvement · Finish Line

2013-01 – 2015-01

Managed $425M in spend across 10, 000+ SKUs, modernizing procurement through Ariba, Six Sigma, strategic sourcing, and category management.
Delivered $8M+ in first-year savings through contract optimization across logistics, packaging, marketing, and legal services.

Director, Instruments & Implants · Zimmer Biomet

2011-01 – 2013-01

Managed $250M in spend across 5, 000 SKUs and overhauled global sourcing systems, building a value-engineering platform that delivered $65M in audited cost reductions.
Founded an Asian sourcing office and stood up a China-for-China supply chain in under nine months, presenting parts side by side with the incumbent to the board, and built the Persona Knee implant supply chain including supplier development, local production, distribution, and U.S. re-importation.
