Work experience

CTO · Sports-venue SaaS startup

2025-01 – Present

The company is an all-in-one business management suite for sports venues and F&B operators, unifying multi-outlet POS, inventory ERP, accounting, HR, and real-time tournament systems.

- Architected and scaled backend services (Node.js, TypeScript, Cloud Functions) powering real-time sports matchmaking algorithms (Swiss-style pairing & dynamic skill ratings) and venue leaderboards.
- Engineered multi-outlet POS & ERP backend pipelines, implementing transactional consistency to prevent race conditions during concurrent inventory deductions and multi-currency/payment processing.
- …

Lead Software Engineer (Tech Lead) · QODE

2023-01 – 2024-01

Qode ([link removed]) revolutionizes the job marketplace for software engineering talents. Qode facilitates seamless connections between job seekers and recruiters, optimizing the recruitment process.

- Led an international team of 6 software engineers across multiple countries from technical scoping to the successful launch of Qode's core hiring platform.
- Architected scalable, headless web scraping systems to aggregate candidate profiles and job listings from multi-source platforms, implementing proxy rotation, headless browser management, and anti-bot evasion bypasses.
- Built…

Senior Product Manager · Rupiah Token (Subsidiary of Pintu Crypto Exchange)

2022-10 – 2023-04

Rupiah Token (IDRT) is a cryptocurrency stable coin where the values are backed 1:1 to Fiat Rupiah. IDRT provides users with a way to trade their Fiat Rupiah on a Decentralized Finance (DeFi) application that runs on top of blockchain technology. IDRT is available on Ethereum, Binance Smart Chain and Polygon network.

- Strategically improve IDRT liquidity on leading Decentralized Exchanges (DEXs)
- Successfully integrating IDRT to the Polygon (Matic) network

Product Manager · Xendit

2021-05 – 2022-09

Xendit is a financial technology company that provides payment solutions and simplifies the payment process for businesses in Southeast Asia, from SMEs to large enterprises.

- Lead the Retail Outlet (Over-the-Counter) or cash-based payments product in SEA (Indonesia and Philippines)
- Achieved rapid growth in Total Processing Volume (TPV) for the Philippines, surpassing $100 million within a 6-month launch period.

Senior Software Engineer (Tech Lead) · Xendit

2019-06 – 2021-04

Technical Lead for Virtual Accounts (VA) and Retail Outlet (Over-the-Counter) payments team

- Lead a team of 15 engineers, structured into three specialized sub-teams
- Maintain and manage distributed systems to handle hundreds of thousands transactions everyday
- Built seamless integration with numerous payment partners across the region Tech Stack: Node Js, Golang, Express, React, Redux, RabbitMQ, Kafka, PostgreSQL, MongoDB, Amazon SQS, Kubernetes, Docker, MongoDB, Typescript, Javascript
