GTM Marketing Manager / Lead

full time

Why this role exists

The client is an AI-powered fulfilment and logistics ecosystem built for fast-growing e-commerce brands. From one platform, merchants run global fulfilment, cross-border shipping, and AI logistics intelligence, with AI reducing errors, lowering costs, and continuously optimising fulfilment and shipping as they scale globally.

We help e-commerce sellers worldwide achieve intelligent logistics management, customs compliance, and fulfillment automation, and we are a core infrastructure partner for small and medium-sized cross-border sellers entering the global market.

As our business continues to expand into North America, we are looking for a GTM Marketing Manager who can work independently and deeply understands the US market, to become a core executor of our US and overseas GTM strategy.

Responsibilities

1. Marketing Strategy & GTM Planning

- Develop and execute the client's integrated marketing strategy for the US and other markets, aligned with the company's business growth goals and sales pipeline targets.
- Continuously research US e-commerce logistics market trends and competitor strategies, producing valuable market insight reports.
- Work with the product team on GTM launch planning for new features/services, defining core messaging and promotion plans.

2. Online Performance Marketing

- Plan, run, and continuously optimize paid advertising across Google Ads, Facebook/Meta Ads, LinkedIn Ads, etc., rigorously tracking core metrics such as ROAS, CPA, and CPL.
- Lead the SEO content strategy, using Ahrefs / SEMrush for keyword research and competitive analysis to drive organic traffic growth.
- Manage EDM marketing and marketing automation workflows (HubSpot), including lead nurturing, automated outreach, and conversion tracking.
- Manage content updates and CRO (conversion rate optimization) for the official website and landing pages.

3. Brand & Content Operations

- Plan and execute the client's social media content operations in the overseas market (LinkedIn, Twitter/X, YouTube) to raise brand awareness and community influence.
- Create English marketing content, including blogs, case studies, emails, and landing page copy.
- Coordinate internal teams such as design and product, as well as external vendors, to ensure consistency of brand visuals and messaging.

4. Offline Activities & Events

- Plan and execute key industry trade shows, brand promotion activities, and webinars in the US and other markets.
- Manage event-related budgets and external vendors to ensure events run smoothly and achieve the expected exposure and customer acquisition goals.

5. Data Analysis & Cross-Department Collaboration

- Build marketing data dashboards and regularly report US marketing KPIs (MQL, SQL, Pipeline, CAC, ROI) to management.
- Collaborate closely with the sales team to optimize the MQL-to-SQL conversion process, ensuring marketing and sales goals are aligned.
- Make effective use of AI tools (such as Claude, Perplexity, ChatGPT, etc.) to improve workflow, content creation and data analysis efficiency.

Preferred Qualifications

- Background in cross-border e-commerce, logistics technology, or supply chain SaaS industries
- Work or study experience in the US, with a deep understanding of American business culture and user habits
- Hands-on experience with B2B marketing
- Skilled at using AI tools (Claude, Perplexity, ChatGPT, etc.) to support marketing workflow automation

Head of Growth & Digital Transformation

Step Ahead · India
